

OBAMACARE REALITY CHECK

CHAIRMAN GREG WALDEN
115TH CONGRESS

Obamacare's Ineffective Individual Mandate

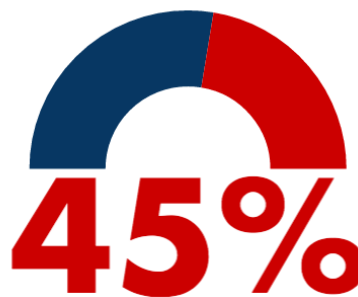

19.2 MILLION

19.2 million taxpayers either paid the individual mandate penalty tax (6.5 million) or claimed an exemption from the individual mandate (12.7 million) compared to 10.4 million individuals who paid for plans on Obamacare exchanges through the first half of 2016

Washington Democrats claimed that as many as 21 million would get coverage through Obamacare exchanges by the end of 2016. But even with the individual mandate this number is set to come in at about half.

The individual mandate is not encouraging younger, healthier individuals to purchase health insurance

of taxpayers who either paid a penalty or who avoided the penalty by claiming an exemption were under age 35
